

Assignment 2, Continued (Week 6)

- Place the scripts `eval_A.m`, `eval_A.p.m`, `eval_energy.m` into your `dynamics` folder.
- Replace the current `impact.m` in the dynamics folder by the new one (in the current folder)
- Place the MATLAB live script `generate_impact_map.mlx` into the `generate_model` folder.
- Follow the instructions in `generate_impact_map.mlx`
